Reach

Ansbach in January 2010

Dear customers,

Reel Company deals with products in the sense of chemical legal products. The products we buy from European suppliers.

As required by the REACH regulation, therefore, we have no obligation to registration.

This is especially true because our products do not release chemical substances under normal or reasonably foreseeable conditions of use (see Article 7 Paragraph 1 of the REACH-Regulation). It remains that the products you receive from us, as products within the meaning of the REACH regulation, are not subject to registration.

The products in our range which may contain chemical substances which have the obligation to register, must be exclusively registered through our pre-suppliers.

1. Preregistration and registration

In our own interest and for ensuring a high level of product safety, we pursue the implementation of REACH and the resulting demands intensive. So we already contacted our European pre-suppliers. The products we sell are mainly widespread products, which are distributed in very large numbers and quantities.

With this background, many of our pre-suppliers indicated already that a pre- or subsequent registration of the relevant substances will be made.

2. Compulsory disclosure of substances in products under Article 33 of the REACH Regulation.

Also regarding the information requirements under Article 33 we are in contact with our suppliers. According to Article 33 of the REACH Regulation, our supplier has to advise us if certain substances of very high concern in the product, more than 0.1 mass percent, would be contained. If we would get this information from our suppliers, we are obliged to pass on this to our customers directly.

According the information we receipt from our suppliers (such as safety data sheets), the products which we send to you (inclusive packaging) contains no chemicals, based on the ECHA candidate list (**SVHC**), published 13. January 2010, as „Substances of Very High Concern“.

If you have any further questions concerning the implementation of REACH in our company please feel free to contact Mr. Sicherman, e-mail: sichermann@reelcompany.com

With best regards

Rüdiger Sichermann
